Contract n° 202479786

To the attention of: Monsieur Romain VEILLET

Test report n° RES449-2024-00000566-01
EPONGES 641925

Customer information		Sample n°	
Manufacturer	-	449-2024-00000566	
Batch n°	-	Provided by	PAD
EAN13	-	Client sample n°	-
DLUO	-	Sampling point	-
DPAO	-	Picked up/received on	09/04/2024
EMB	-	Start of analysis	11/04/2024
		End of analysis	23/05/2024

Conclusion Vanillin detection above quantification limits.
The measured value is below the declaration threshold defined in regulation (EC) no.1223/2009 in Cosmetics applied directly on the skin and not rinsed.

(1) This value corresponds to the quantification limit

The results and observations of this test report only concern the sample provided to the laboratory and tested. For tests not requiring sampling, the results only concern the sample such as received. Except specific case, the sample will be kept during the duration mentioned in the contract or by default in our terms and conditions from the date indicated on the present document. The sample and the information regarding the sample have been provided by the client. All information related to the sample are under liability of the client and have not been checked by the Eurofins company. This test report is not aimed to give an exhaustive conformity to regulations. It only refers to qualitative and quantitative criteria which allow declaring the specifications of the reference file when provided by the customer. The result (excluding microbiological analyses) is declared not compliant when, in spite of taking into account the measurement uncertainty at a 95 % trust level (if available), the value found cannot be included in the specification interval and/or be inferior to the regulatory limit. The copy of this report is only authorized by unabridged edition. Any publication of this report must be authorized by Eurofins.

EPONGES PAD végétales et synthétiques
PAD SPONGES vegetable and synthetic
RAPPORT D'ESSAI / ANALYSIS REPORT N°0009

OBJET : Analyse selon cotation n°003/2020 du 18/02/2020 / Analysis according quotation n°003/2020 of 18/02/2020

RELEVÉ D'ÉTIQUETAGE / LABELLING MENTIONS

Marque / Brand : PAD
Gencod : Absence
Numéro de lot / Batch n° : Absence
Conditionnement / Packaging : éponges synthétiques et végétales avec abrasif végétal / synthetic and vegetable sponges ergonomic form with vegetable abrasive
Réception / reception : Reçu de chez PAD / received from PAD

COMMENTAIRES / COMMENTS :

Based on the tests realized, for both vegetable and synthetic PAD sponges, the scratching potential is very low, with and without dish soap.
For all the tested supports (glass, stainless steel, ceramic and vitroceramic), the supports show no scratches after 10 cycles on the machine, with and without dish soap.

V. MIDENA

(*) Sur la base des documents fournis

EPONGES PAD végétales et synthétiques
PAD SPONGES vegetable and synthetic
RAPPORT D'ESSAI / ANALYSIS REPORT N°0009

TESTS ON SCRATCHING POTENTIAL

Method

Equipment : Branca - Number of cycles : 10 / 30 cycles with a 5 kg weight
Without dish soap : water is sprayed on the support, at 20 ml/ min, during all test
With dish soap : dish soap diluted in water at 10g/l is sprayed on the support, at 20 ml/ min, during all test
Directly on sponge 2,2g of dish soap is also added, at the beginning of test

1- For scratching potential, a visual evaluation is done, after 10 cycles, based on following **evaluation scale** :

- 5 - no scratch / 4 - some small scratches / 3 - many thin scratches
 - 2 - many thin scratches and some deep / 1 - many thin and deep scratches / 0 - important scratches
- 2- For abrasiveness**, the weight difference in measured, on stainless steel supports, before and after 30 cycles on the machine

Results of visual evaluation

SCRATCHING POTENTIAL after 10 cycles	PAD sponge vegetable		PAD sponge synthetic	
	Without dish soap	With dish soap	Without dish soap	With dish soap
Stainless steel	4,5	5	5	5
Ceramic	5	5	5	5
Glass	5	5	5	5
Vitroceramic	5	5	5	5
Results of abrasiveness				
ABRASIVENESS on STAINLESS STEEL : weight loss (mg) after 30 cycles	5 mg	5 mg	6 mg	4 mg
